

# Unique Flooring Solutions for Education

K-12 EDUCATION

**Gerflor**<sup>®</sup>

Gerflor offers a wide range of flooring solutions that keep schools running smoothly, even during renovations. Many of our floors can be installed over existing floors, fast-tracking the project, minimizing disruption and saving money. From classrooms to hallways, multipurpose rooms to daycares, lunchrooms to gymnasiums; our flooring surfaces are safe, durable, and help to create an optimal learning environment for students and staff.

### Health, Wellness and Performance

Our floors are FloorScore® certified, ensuring low VOC-emissions for a healthy environment. They have been third-party tested and ISO-certified, inhibiting viral and bacterial growth and contributing to a safer space for students to learn and play. Our flooring solutions deliver durability that stands up to heavy abuse in high traffic areas and offers stain and chemical resistance – for the long term.

### Renovation Without Disruption

Gerflor products can be installed with little disruption to school operations. Many of our products can be installed directly over existing flooring, eliminating downtime and putting the refreshed space back in service within hours.

### A Trusted Partner

Gerflor is the most trusted flooring manufacturer for education facilities. Our specialists have years of experience and technical knowledge to provide the right flooring solution for every room in your school. Gerflor has been delivering safe, durable and easy maintenance solutions to schools for over 80 years.

### FUN FACTS

- Over 60 million square feet have been installed in the USA for sports and multi-use activities
- Collaboration and communication are key to creative learning environments, just like work and home spaces
- Gerflor invented cushion back sheet vinyl flooring for multipurpose and athletic use

### INTERLOCKING FLOOR TILES

- Unique solutions for installing over existing or challenging subfloors with minimal or no subfloor prep
- Ideal for fast-tracked school renovations as tiles install quickly for a seamless appearance
- No shutdown of premises and no loss of learning time
- Superior wear resistance and ability to hide scratches – stands up to heavy abuse in high traffic areas

### MULTIPURPOSE SPORTS FLOORING

- Cushion backing technology and burn-free surface – reducing injuries during sports and other activities
- Noise management control for noise reduction
- Superior indentation resistance and recovery allows for flexibility to use as a multipurpose room
- Thick wearlayer with exceptional stain resistance makes our floors durable and versatile

### LVT

- Creation Clic and Creation Connect are ideal for fast-tracked school renovations as tiles install quickly with no shutdown required
- Easy tile removal and reinstallation for facility utility work
- Easy maintenance and no wax for life
- Floors are hygienic with antiviral and antimicrobial properties, extremely hard wearing and easy to maintain
